

## Burnside Historical Society

### RECORD OF ORAL HISTORY INTERVIEWS

Oral history interviews are recorded on discs which are copied and held in four locations as follows:

1. Copy for the interviewee.
2. Society's own copy stored in the society archives in the Local History Collection at the Burnside Library.
3. Copy at the State Library in the J.D. Somerville Collection. (for the 1945-65 period only)
3. Copy in the Burnside Library. These copies are not for loan but can be used for research purposes subject to the approval of the interviewee according to their *Conditions for use* form. An extract from the *Memorandum of Understanding* which applied when some discs were passed over to the Burnside Library in May 2014 (signed 2017) states:

*The Society will assign to the Library any copyright it might own in any of the recordings so given, now and in future. The Library undertakes to preserve and catalogue the recordings and make arrangements for their use on conditions to be determined by the Library, subject to copyright owned by the speakers or interviewees.*
